About Ralph

Ralph is a comprehensive support system that assists pet owners in managing the quality of life for aging or sick pets. It provides tools to monitor wellbeing metrics, evaluate comfort levels, and support informed decision-making.

Daily Wellbeing Assessments

Track your pet's daily comfort and activity to detect early signs of discomfort.

Trend Charts

Visualize trends in your pet's quality of life to identify potential areas of concern early.

Exportable Quality of Life Reports

Share detailed quality of life assessments with your vet to enhance your pet's care.

Empowered Decision-Making

Make informed decisions about your pet's care and treatment.
